Hi David and Ron,

Attached is the signed copy of the Division's approval letter approving your amendment to begin your planned mining operations associated with the Sunrise deposit (mining of pit and waste dump construction) and with the flotation tailings raise, as identified in your amended Notice. We will provide you with a stamped copy of the approved pages in the near future.

There's a condition placed on the surety which you'll need to respond to within 120 days (the timeline required by the rules for this situation). See the letter, and contact Penny Berry or Paul Baker if you have any questions. They will both be in on Monday.

We are finalizing the review comments for the rest of the Notice submittal (which constitutes a revision requiring public comment), and we hope to provide you with those comments next week.

Thank you for your patience. We understand that timing is important. Let me know if you have any questions or concerns.

Peter
